Vishwajeet Gupta

+91-8604920855 | vishwajeetgupta0326@gmail.com | LinkedIn | GitHub | Kanpur, Uttar Pradesh

Objective

Software Engineer with hands-on experience building scalable software using **Java, Python, Spring Boot, REST APIs, WebSockets, and AI-powered applications**. Strong foundation in Data Structures, Algorithms, Object-Oriented Programming, and Software Engineering with experience developing efficient, reliable, and reusable software. Passionate about building production-ready systems, contributing to collaborative development, and continuously improving engineering skills through real-world projects.

Technical Skills

Languages: Java, Python, JavaScript, SQL
Backend: Spring Boot, Spring MVC, REST APIs, Microservices, WebSockets, WebRTC
Frontend: React.js, Redux, HTML5, CSS3
Databases: MySQL, PostgreSQL, MongoDB, Redis
Cloud & DevOps: Docker, AWS, CI/CD
Testing: JUnit 5, Unit Testing, Integration Testing, Regression Testing
Developer Tools: Git, GitHub, Maven, Postman, Linux
Software Engineering: SDLC, API Design, Feature Development, Software Design, Code Reviews, Debugging, Performance Optimization, Agile Development, Problem Solving

Projects

RouMic – Real-Time Streaming Platform *Feb 2026 – Present*
Java, Spring Boot, React, WebSocket, WebRTC

- Developed scalable backend features using Java, Spring Boot, REST APIs, and WebSockets for low-latency real-time communication.
- Built reusable backend modules for room management, performer queues, and session handling.
- Implemented a WebRTC signaling server achieving sub-300 ms connection latency.
- Improving platform scalability by migrating from peer-to-peer architecture to an SFU-based broadcasting model.

AI Code Review Assistant *Oct 2025 – Dec 2025*
Java, Spring Boot, PostgreSQL, LLM API

- Developed an AI-powered code review platform using Java, Spring Boot, PostgreSQL, and LLM APIs.
- Built REST APIs for automated code analysis and developer feedback.
- Improved backend processing efficiency by optimizing API workflows.
- Integrated LLM APIs to generate contextual code review suggestions.

PocketPaw – AI Orchestration System Open Source Contributions *(Feb 2026)*
Python, pytest, Git, GitHub

- Improved backend routing and AI agent-selection logic to enhance workflow reliability.
- Added regression tests and participated in pull request reviews using Git workflows.
- Successfully merged production-ready pull requests after reviewer feedback.

Education

Pranveer Singh Institute of Technology, Kanpur 2023–2027
Bachelor of Technology (Computer Science and Engineering) 80.09%

SGM International School, Kanpur 2021–2022
Class XII (CBSE) 79.2%

SGM International School, Kanpur 2019–2020
Class X (CBSE) 91.16%

Certifications

- Machine Learning Specialization – DeepLearning.AI — June 2026
- Java Programming – IBM — June 2025
- Introduction to Software Engineering – IBM — May 2025
- Meta Database Engineer Professional Certificate – Coursera — Nov 2025

Achievements

- Qualified GATE (CSE) 2026 – AIR 6827 (Score: 512)
- Solved 350+ algorithmic problems across LeetCode, Codeforces, and CodeChef
- Qualified TCS CodeVita Season 13

Relevant Coursework

Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Object-Oriented Programming, Software Engineering, System Design, Machine Learning
